Making Digital Identity a Reality

Identity Trust Conference: Making Digital Identity a Reality

14th October 2021

Target Audience: 300. Including 200+ Service Provider organisations who will be the future buyers of Digital ID

Format: Hybrid.

- Face to Face Conference + Exhibition at Congress Hall, Central London
- Online Live Stream: Main sessions streamed to remote attendees.

Identity Trust – Making Digital ID a Reality, is primarily aimed at organisations who may want to rely on Digital IDs.

It aims to answer the following questions for these organizations:

- What is a Digital ID? What are the benefits they can bring you and your users?
- Are they just abouts IDs? Or other trusted attributes as well?
- Will Digital IDs be inclusive? Will they enable me to deal with more customers digitally and instantly than I do today?
- What does good Digital ID look like? What is a Trust Framework? How does this make using Digital IDs safe and robust?
- What are governments doing to enable the use of trusted Digital IDs?
- Which sectors are making ready for the adoption of Digital ID?

The conference will bring together experts from around the globe to explore these topics.

UK Government representatives will explain their initiatives to make Digital ID a reality, including progress on the UK Trust Scheme for Digital ID and Attributes.

The conference will also include deep dives on:

- different aspects of how Digital ID works – from the technical to the legal.
- key UK sector-based initiatives aiming at making Digital ID a reality.
